R danny bot commands.

Actualmente, quando R.Danny detecta uma ficha numa mensagem, cria uma nova essÃªncia, a partir da qual a Discord pode detectar a ficha Mas e se, em vez de criar uma nova essÃªncia, editasse a mesma essÃªncia vezes sem conta para que a Discord pudesse ler a partir dela? That would be a lot cleaner, and maybe in the future you could create gists without them getting overcrowded by token gists libraries using d.py still throw an error Reproduction Steps after uninstalling discord.py (being incompatible) the error started Minimal Reproducible Code No response Expected Results they should've just imported and then work Actual Results File "/home/container/.local/lib/python3.8/site-packages/nextcord/ext/commands/bot.py", line 661, in _load_from_module_spec spec.loader.exec_module(lib) # type: ignore File "", line 848, in exec_module File "", line 219, in _call_with_frames_removed File "/home/container/process-nr/cogs/slash.py", line 18, in import dbl File "/home/container/.local/lib/python3.8/site-packages/dbl/__init__.py", line 18, in from .client import DBLClient File "/home/container/.local/lib/python3.8/site-packages/dbl/client.py", line 35, in from discord import Client ImportError 664, in load u module spec raise errors.ExtensionFailed(key, e) from and nextcord.ext.commands.errors.ExtensionFailed: Extension'cogs.slash'raise an error: ImportError: you cannot import'Client' name from'discord'(unknown location) Intents.members System Information -Python v3.8 [X] I've shown all traceback, if possible. [X] I removed my symbols from the exhibit, if visible. Additional context No answer t: bugles: planned © diodes opened by piotr25691 29 This request to pull adds Guild class members online. This exists to save time for bot creators who need to quickly check if a user is online, or to find out how many users are online. Checking list [If there have been any change in the flow, then they have been tested. [x] I updated the documentation to reflect the changes. [] This PR solves a problem. [x] This PR adds something new (for example, new mother © whole or parameters). [] This PR © a break change (for example, mother © all or parameters removed/renamed) [This PR is not © a change of venue (e.g. documentation, README,...) invalidity opened by redcreeper14385 opened by TAG-Epic 13 Adding the advantages of Nextcord to README (35;85).
