You might think that these two videos are about the same topic. After all, as we all know, Asuran was an attempt to make a commercial film set in a rural setting, and for that you really need to cast the roles of hero, villain and more. While Karnan was ultimately a story of village oppression, dhanush made a difference. We use cookies and provide our services and provide our services as described in our Cookie Notice. Karnan, a fearless village youth, has to fight for the rights of the conservative population of his village after being tortured by the police. just a rough mentality One might think that these two films share the same theme. Ultimately, as we all know, Asuran was an attempt to make a commercial film set in a rural setting and it really needs to name the hero, villain and other roles. While Karnan was ultimately the story of the village's oppression and Dhanush influenced change. Selvaraj is implemented absolutely without the hero-centric template characteristic of the film and even clarifying who the villain is here (evil is the mind, which was well shown when Natty played the role of a policeman). These references to eagles, donkeys and dogs have been perfectly explained. Finally, Karnan fit very well into the mythological themes of the Mahabharata, with silhouette shots of the sun and more. Either way, this is a story that will last for generations, with powerful storytelling and visuals that don't hurt any of the details. S: These are films that even Tarantino cannot make in Hollywood.
