It is available on Android, iOS and through your browser. The application recently changed only from Google Keep on Google Keep notes. The application is the same, however. It's just a little rename of Google. It looks like a simple note that takes the application on the surface. However, it has a ton of fun little features and many extras for your convenience. Let's take a look at how to use Google Keep notes. You can download the application to your Android device with the button just below. Make Google Download Keep Google Play Notes! What is Google keeps notes? Google Keep notes is a note note. It is directly connected to Google Drive's experience. However, to the contrary of the majority of Google Drive, Google keeps notes is your own So you can not access notes from the Google Drive application, as you can make Google Documents, Sheets or Slides. Taking notes consumes your google drive space. However, once they are so small, you probably never warn you again. The application launched on March 20, 2013. A © Pass a ton of evolutions since then. Which includes the aforementioned name change, several interfessories interfessories and changes, and various improvements of resources and additions. It currently has more than 100 million downloads in the Google Play Store. It is also a Web version, an extension of Google Chrome and mobile applications for Android and iOS. The application has a simple user interface, simple and simple customization capabilities and Support for Google € S wear. It A € s light behavior makes it snappier than heavier notebooks. He also has some of the best multi-platform support of any application notes on the cell phone. As last, the application is totally free with purchases, signatures, or premium versions not in the application. LETA VERIFICATION S Find out how to use it! How to Use Google Notes Keep: The Principles of Leta Initio S with some of the Basic Principles. This should get your door on the door and take it rolling with notes keep Google. You can create five types of basic notes on Google Keep notes. They include a regular note of text, a note list, a handwritten note, a voice note, and a note photo with your camera. The bottom bar of the main screen provides fast shortcuts to make all five types of notes. A, you can start by typing on the place provided on the bottom bar to create a regular text note. Each right icon creates a different type of note. They go in order to list list, manual notes, voice notes and image notes. Just touch one of these icons to start creating your note. If you create a new written note to the hand, the application will go automatically, at the bottom of the screen, if you need it. You can access Google keep going to Keep.google.com, and take notes on the website version in the same way as the application. The Web Version includes image notes, lists, regular text notes and hand drawn notes with the mouse. The pen or finger is also useful if your computer supports. You can also install the Google Chrome extension to keep Google Notes. Itams a little nauseous, but he, in fact, take notes. As last, Google keep notes has native support for Google Assistant. You can ask Google Assistant to take a note and this note should appear in Google Keep. An interesting features because this is to create an observation list of purchases with Google Keep notes. You can then ask Google Wizard to add items to your shopping list and it á € will fill out the note with items.á, you can share most things for Google keep to store them as notes. This includes links in Google Chrome, images from your application gallery of choice, etc. Just select Google Keep on the sharing menu that Appa s and it á € will create a note! You can organize notes in a variety of ways with notes keep Google. However, the main method is the list on the main page. This is the place where youhá will interact with most of your notes. You can organize the notes on the main page by pressing and holding on a note. It jumps out and you can then drag it up or down the list at your leisure. In addition, you can set notes to the top of the list, if necessary. You can do this for a long time by pressing the note you want to fix. Once it is selected, a row of icons appears at the top of the screen. Select the one that looks like a pin and Google keep will set that note to the top of the list. Easy! There is a label system on the pull-out menu. ItA € is accessible by running from the left side of the screen, or by clicking the Keep icon in the upper left corner. You can create, customize and organize your heads there. Add notes to Rotules is easy. Open any note that you want to add to a role. There is a three-point buttons in the lower right corner of the note. Click on it, select the label options, and then choose the label that desires the note to be in. Assigning notes, you can quickly access those notes by opening the Google Keep menu and selecting the role. Then it shows all the notes where Label.á, long press any note to select it. From there, it hit the three-point menu button in the upper right corner of the screen.á, the option to make a copy, delete a note, or archive a note are all in that menu. You can also Notes for other applications. Enter a note, click the three points button in the lower right corner. From there, select the option to the path followed by a shipment via another Appsa € option. The information contained in the note is then sent to any application you choose. You can change the color of any note in two ways. The first is short by pressing any note to enter the edition mode. Beat on the three points in the lower right corner and the color palette will appear at the bottom of the screen. The second method is the long press a note until it € s selected. A palette icon appears in the top bar. Press it to change the color that way too. Google Keep Notes features collaboration notes. You can add friends or family to any note and everyone can edit them in real time. To do this, open a note and tighten the three-point menu button in the lower right corner. A contributor option will appear on the menu. Just add them with your email address and they can use this account to access the note along with you. Users can adjust the Basic Keep Notes Layout with the cash icon in the upper right corner. You only have two options. The first is a more minimal method that shows a note at a time in a list. The second shows two Side-by-side notes in a list format. Choose what suits you best. Google Keep can actually do a little more than just take notes and have a lot of additional resources for other types of uses as well. You can add reminders for notes. The reminders make notes appear whenever you need them to. This feature can be used in two ways. The first is for long pressing a note and then clicking on the bell icon (with a sign of more). You can also get into an individual note and find the finger in there. The reminders can be set per hour and date. You can also have the recreation reminder at regular intervals if you want. This allows Google to keep Notes functions as a very light list of applicant cheats. You can also set reminders with a place as a GPS reminder. This reminder appears when you reach a certain destination. You can access it in the same way you can regular reminders. Just click on the place at the top of the box reminders when it appears. Google Keep Notes Needs Permissions location to use location reminders. Denying the location application prevents permission from workplace reminders, even if you do this after creating them. In Google Keep, take a picture of an item with words about it. Continue until the note is created. Open the note with the image as it and touch the image. In the upper right corner, click the three points menu and select the Grab Picture Text option. Google Keep Notes add the text text to the first note for future reference. Google Keep Notes Export Notes for Google Drive: There are two main ways to do this. One of them is in the application and the other is about the Google Drive Web Version. The application version is easier. Long press a page note and click the three-point menu at the top. There is an option to copy to Google Docs. Click on it and wait for the process to complete. The other way is a little more complicated, but allows you to injure information from a note on a Google doc. Open a Google document in your computer web browser. There must be a Google Keep icon on the right bank. Click it.á, from there, you can click and drag notes to Google Doc. Google Drive copies the text and format (if items in list format) for Google Doc. You should be able to make everything in notes maintain Google now. WEA will update the list as Google continues to add new features. Of course, we want to hear from you too! What resources you use more and, as always, let us if you lost anything! nothing! nothing!
