Google has created its own versions of Word documents and Excel spreadsheets that are available for anyone to use. For me, reading has always been about this website's tagline: Mastering the best of what other people have already figured out. This is the grunt work of thinking. As the body assimilates what is homogeneous to it, so will a man retain what interests him; in other words, what coincides with his system of thought or suits his ends. But, in reading, our head is, however, really only the arena of some one else's thoughts. If you're skilled at programming or coding, you can even make tweaks or changes to many open source programs to accomplish even more. This is why we are consciously relieved when we turn to reading after being occupied with our own thoughts. Free database software is also available to help you organize everything from client lists to Christmas card lists. lists.
