As bombs me: 5 infernal game moments from my past Did you catch a smell something burned when you trait the next boss in soulsborne-games? And unexpected death in Sekiro? It is not a limit. And what it to discuss, and so all speak about it. Can "Bombanut" us from any scrape and in any game. As a rule, it is connected with curve management change of the camera, ridiculous mechanics and just because a game considers that we insufficiently for it are good. Today I suggest to ponostalgirovat a little on the moments when really "burned". At once for "gdekayushchikh" I explain that it is not a top, but personal nostalgic impressions from the past about pain and sufferings. Suddenly so it will turn out and something will coincide with yours? I was always enraged by enkaunter for a while. Here just froze. Sometimes a game gives it with a stock on an oversight, and something to run - you lower the knife switch, and in some bum the door will open and you run there, like mad. Only try to fall or on something to run - you will change a heap of times. One of the remembered examples, is level in Venice when we need to slip by the boat somewhere aside. Practically in each part of TR there will be such picturesque example, for example dashes from boulders in the third part... Brr.
