Striker leveling guide bdo

Bdo fastest way to level gathering. Best way to level gathering bdo.

For the precise of the same time +5% for 12 seconds. It also offers an amateur to the speed of 30% movement for 10 seconds and is an essential skill. It has the same AP as Liverto but more precise and a +3 attack speed element effect. Offin Tett Radiant weapons of Gauntoffin Tett in which it is generally not worth investing due to the precision. CRIMES written by Reireviewed by Lexyu January 19, 2022 Publication Published for Level Content 1. Advise that blocks this ability to avoid possible conflicts with other skills. It has an AP much more high, but it can only be obtained from a leisure tooth weapons box (Karanda World Chief Botiners) or the night seller. The striker has good mobility with skills such as Storm Dragon Awakening, Phoenix Advent and Moon Flash Kick to cross the dungeons and fights. He uses the flash kick from the moon, the violent tiger and packages and bosses. You can use your grip [e] directly after also, making it really powerful in PVP. This guardbrace has lower AP than the other options, but it is still viable for PVE because it is damage in the effect of each species +5 of elements. The recipes for these are: ICONO RESULT INGREDIENTS Use Knight Combat Rations Dark Pudding X1, Ham Sandwich X1, Fruit Wine X1, Meat Sandwich X1, Attack +5, Daote against human race +5, the reduction of the entire dava O +5 for 120 minutes Kamasylva Special food button Rainbow button sandwich x1, coconut paste X1, Fig Fig X1, Fruit Wine X2, Rainbow Botine +5%for 110 minutes Valencia Sandwich X1, Sandwich X1, King of Jungle Hamburger X1, Cuscã's X1, Fig of Fig All evasions Decrease of the Monsters of the monsters -6%for 110 minutes king of hamburger of the jungle teff breed x4, x4, The X2 vegetables, lein x4 meat, x3 nutmeg igno all resistance +3%, damage ã ã ã © xito chronic +5% for 110 minutes. In addition, you may want to use courage perfume (polished lost in death) and the elixires of hard whale tendons. The Tree Dim's spylue (chest), fell from the spyrus of Erbol. The other flow skills, Flow: Rock Smash and Flow: Tornado Kick are ostile to level, but then you get your awakening, want to block those skills. The Wolf hairstyle is another of the flow skills that are ostile. Mass suppressing [e] This ability is your appeal of those not awakens. For the AutoCrotic Type +20% rate for 9 seconds. These crystals cost a significant amount of silver. However, Dragon Slayer weapons cannot be placed in the market and must be prepared by the player himself. The hammer of the knees also has a CC rigidity, which is the reason why this ability is used. Bring your enemies towards you and also has a sinter, which makes it excellent for gathering monsters. They have a little less than but are very cheap to repair and much less problems. It has comparable statistics for the boss's armor and also a very ultimate established effect that provides a reduction in hidden and hidden AP. The high AP makes this weapon the best in the PVE and also good slot for PVP in the Tardio game. There are some combined videos of recommended skills in the section of ã ostile links and the end of the guide! The keys in the square supports [I] mean that it touches the key. If you are late or go to lazy, you can use an exquisite chron meal. Moon Flash Kick (4 points) for identity indicator gain. For the critical cruster clipper rate [Level 58] +20% for 9 seconds. This construction is good for large -scale PVP, but I don't know For PVE unless, unless, with low evasion turbs or mobs, be much more high than. You must sign up for a spylist belt of the pri/day Erbol before exchanging the basilisk because it is much cheaply and more very important to achieve. The ability can be used in the reuse time, but the front protection is not used if the ability is in the reuse time, so I Put this ability in its user interface as a skill cooling slot so that you can monitor it. Otherwise, use the bars slopes for 2 AP and change to the Witch Arete as soon as possible for the 5 AP. You want to point to the slopes of the D6ºO/Tri Witch (9 AP/11 AP) before changing to a tunggrad slopes (11 AP) due to the big difference in cost. For autoinflicts 50 bleeding for bleeding for 3 seconds. Little made weapons: Leather Vambace The Leather Vambace is currently considered the best hand to go if you are a beginner, especially if you do not have the BHEG gloves or the precise of Liverto/Kzarka, due to the precise. It must be prepared with elements at the end of Star and then follow a bashion line. However, the monsters of ã © lite and stronger bosses are a favile objective for the skills focused on the goal of Stiker. Primary weapons: Rosar Gauntlet The Rosar Gauntlet is what you should aim at level your character. The combos are designed to be very complicated and players can find more difficult to dominate, but it is not too difficult to collect if you are a new player. GENERALHEAVY FIST (LMB) This ability is applied automatically when you rise level and it is your automatic attack. Espãritu Cabinet Slot Rapid Slot Spirit is a liability that allows the use of martial spirit fragments. It has a damage to all species +10 and for the effect of the attack speed +3, so as to other bonuses when it improves. Basilisk and Valtarra's belt are very good belts, but Tungrade is currently the best in slots. Established) precise 2 hidden evasion of 14 pieces bonus of the set: attack +56 pieces bonus of the set: attack +10-10-channel It is improved in the sincere eye of eyes Games of the bonus of the set of pieces AP3: Health +3005 pieces Sweet +20 Cannot Be Mayancient Weapon Be Mayancient Weapon. Limit 80LTACCURACY 2SOCKETS (crystals) These are an example of the best plugs for their class. Level 35: Lightning Whisper (20 points) for identity indicator gain and some AOE. It is an important ability to have, but it depends totally on your style of play how many levels you put in it. Muskan's shoes (shoes): alternative choice: fell from the monastery. The best slot armor for the striker is the Griffon helmet, the Dim Tree spirit armor, the BHEG gloves and the Urugon shoes. For Target PVX skill accessories [Succession] [Level 50] AdamantinePVP +5 attack for 5 seconds. It gives the damage of the Crisso X4 crusher and has a really good range, as well as an armor. Spiral cane [shift] + [LMB] This ability has a small regeneration of HP and you can also use an endless fight after it. For example, [q] + [lmb]> [f] means that it touches q and lmb at the same time, then touch f [lmb] refers to click left with the mouse, [rmb] refers to right click with its Rat. Flow: Mass destruction [RMB] Hammer knee [shift] + [LMB] This ability is a very good ability to level and also very igetel once you have your awakening. The ability is also your rage ability of 25% of black spylit, which adds an additional elimination and damage CC. Infernal destruction [I] This ability is a skill of high damage that is ã Etíl in PVE but sometimes you can spoil your combo in PVP if you have. F for too long on the crusher and the flow of the chrhenate: hammer of the Required skills: massive suppression, roaring tiger, spiral PVP combines the combo for CC and Daã ± e to your enemy. Mobility evasion (Hold Shift) + [a] or [s] or [d] This ability is its roll. Urugon shoes (shoes) fell from Urugon (Gaifinrasia Raid Captain Scroll). I recommend experimenting with your accessories and discovering what is best for you, because it really depends on your personal preference and how your class plays. Large -scale PVP skills accessories [Awakening] [Level 50] Rage Hammell Defense +15 for 10 seconds. The other alternative is the black distortion earrings that give the greatest amount of AP (21 AP in PEN), but also reduce their DP. It is also worth mentioning the maid of Capotia. You can also wear Tet Heve and Tri Muskan's shoes, but Griffon and Urugon shoes are considered the best in the groove in the finish line. If you're going to look. Start by obtaining level 4 in its main hand for the additional 4 APs. To obtain a journey from the leveling missions, see the leveling guide. The ability has no protection and a very long animation, so it is simply not ã Etíl for PVP and it is not worth putting points. Try to buy a Rosar +15 gauntlet if you can save your improvement resources. Personally, I would not invest in a Liverto because it will only delay its progress. There are different crystals that you can depend on your team's configuration. I would not recommend it unless it already has its complete construction and has spare skill points because it requires many skill points and is rarely used. The leftover points can be spent on secondary skills of your choice. At level 56, the striker unlocks his weapon to wake up, which is a garden and can summon clones of the striker to cause damage next to him. Flow: Deathstrike also has a strong debuff DP that you can gradually combine your awakening. + [F] This ability is your 100% black spyrte anger ability that adds additional damage to the skill. For PVP/PVE Scale Scale Skills [Awakening] [Level 50] Rage Hammery Defense +15 for 10 seconds. For the objective [Level 52] Rage Hammell Defense +15 for 10 seconds. Debuffers enemies with a whisper whisper before using damage skills for a greater chance. The ability also has an unreasonable and unfeasible when the skill/teleportation is used. However, the weapon cannot be improved with caps stones. It is not mandatory and should leave it at level 1 until you have the

Such as the Moon Flash Kick and Violent Tiger to Burn Mob Packs or Bosses with essolat skin. Tiger emerges. Be careful not to be interrupted when a violent tiger and lightning are used to obtain an identity meter. The striker really protrudes small and also is very agile in wars/sies of nodes under multiple roles, such as frontline, defense and flanking. Check the videos below to see some examples of forward in action. Level 20-21: Moon Flash Kick (20 points) for a nearby gap. Accessories People are many options available when it comes to accessories and it really depends on what you can get. Game, this gives you 7 AP and also has a very good established bonuses. Configure 2 skill prejustments for Dungeon/Cube and Raid chaos compilations, which are listed below in the Finjue section. If you already have And he has already invested it, he will want to update it to PRI or more as soon as possible. Some players really like this ability, skill. The problem is that if you are fighting a group of players, it teleports you randomly among them and can put yourself in vulnerable positions. For the AutoCrotic blow rate +10% for 9 seconds. It cannot be improved, but it is a good alternative until you can obtain the Crescent Guardian or Mark of Shadow ring to PRI/Do. The best current in the slot is a tundra ring. It is also worth mentioning the Capotia ring. It is a EtIl to close the gap between TA² and your enemy. He also has a guard forward and is one of his only skills stiffly, so he can rotate the effects of CC with other skills. Kzarka Gauntlet Zkarka is the main weapon that will use. For the Tigerattack of Target [Level 54] against Monsters +25 for 8 seconds. For its accessories, you must prioritize the Centaurus belt, the Bensho necklace, the hands of hand and finally the rings of the chains. Putting more levels in the massive suppression will make your grip last more, but it has very little damage and sometimes you can give your enemy the opportunity to use potions and heal if you are alone. The ability also has a syndor and the accessories for this ability are also really good, especially 20% of the critical complement because then it has 70% of total chances of criticism with this ability. For oneself [Level 58] Prime: Critical Critical Rate of Skull +20% for 9 seconds. You can find more information about the AP and DP slopes here also has 2 glass slots. For autoinflicts 45 pain pain for 3 seconds. If you are only making level 1 node wars, for example, then it is better to keep Kutum because the node is limited anyway and the additional DP can lead to a higher DP support. Click on the image below to enlarge the game game (complete DP): the link is to eventually point You will look for a complete DP completion. The forward's class uses blows and melee rank kicks. Skill combos The following skill combos are combos/basic combos and additional additional for your class. Notable fiery levels are shown below to obtain the most important skills. Make sure to reassign those points in the main skills when necessary. Required skills: crouching wolf, infernal destruction (Quickslot: Crouching Wolf)> (Hold F) Use of this combo will change it automatically to wake up and use internal destruction. REQUIRED SKILLS: AGACHED WOLF, CRISER OF SALA (QUICKSLOT: CROUCHING WOLF)> (Keep Shift + (HOLD F) Use of this combo will change it automatically to wake up and use Cr crés. Required skills: Flow: Mass destruction [a/d] + [RMB] The use of this combo will change it to wake up not to awaken, and also gives you sà 'pera armor. Required skills: Flow: mass destruction of any ability to awake Super Armor. Required skills: Mass suppressing, Fang Cameled, Flow: death blow, echo syprus [change] + [q]-> [shift] + [lmb]> (quickslot: skull crusher)> [w] + [f]-> [shift] + [rm b] This is a basic combo that you can use in PVP after landing a grip. Required skills: Mass suppressing, Fang Camed's, Flow: death blow, skull crusher, perfect blow, knee hammer, spiral cane, echo syprus [lmb]> [rmb]> (quickslot: skull crusher)> [shift] + [f]-> (hold shift) + (hold lmb)> [shift] + [q]-> [w] + [f]-> [Shift] + [RMB] This is a basic combo that you can use in PVP after landing a grip. It also has enough rank compared to its other skills and can Combined with Step flash to launch it to the revival. I would not recommend to start with this construction, and only try it yourself when your other team is in a high improvement (at least softcap). For autoal +5% evasion for 10 seconds. You can also combine this Family with other skills such as Claw and Flow hides: Fang Savage, just keeping [shift] + [LMB]. He has a DP -10 Debuff, Floating CC and recovers WP, but it is simply too risky to use in PVP. However, the ability has no protection, so it must use it wisely when the objective is already CC à € of the D/Wolf's fang (optional) [s] + [LMB] + [RMB] This ability is completely optional . For the speed of self-ato -10% for 7 seconds. You want to get Tri as soon as possible and then work on your accessories. The ability has no protection and is only really à EtIl as an additional skill in PVE. The ability has a decrease, but be careful when using it because the ability has no protection at all. Explosion without restrictions (displacement) + [RMB] endless explosion is another important ability that is à EtIl for PVE and PVP with a crazy damage and a smash. His weapon to wake up affects your damage for succession, but it is not so priority. For car [Level 60] Attacking for predators +10 for 5 seconds. Try to define all its pieces as soon as possible, especially its armor because it will give it a great impulse of DP. Click on the image below the construction of level levels: the link is a low level construction if you are looking to improve your equipment before obtaining the boss team. For autoinflicts 42 hemorrhagic damage for 3 seconds. It has been reaching this stage for a long time, and this particular construction uses elements that are not included in the other compilations, such as the Rosar Vambraces, the Heve helmet and the gloves. You can use the ability while in your awakening using [shift] + [c], so it is an excellent ability to chain combos. You must improve it to at least +7 to level and then pri or more as soon as possible if you do not have Liverto/Zkarka. To get more about this, click here to see our world world guide. You can use [f] after melting the flow: chrhenate hammer. Flow: Cride hammer [f] while maintaining the criticism that this ability is its flow ability of the crove. For Targetinflicts 50 burned for 3 seconds. For the objective [Level 56] Fist Fit +10% fury rate for 9 seconds. Once you reach more than 261 AP (with Kutum), it is better to return to Kutum for PVE. These are automatically absorbed when using a skill and improving skill. For the self-convent speed +7% for 10 seconds. For evasion of self-assessment +4% for 10 seconds. He has a decent damage and a stunning in good things, as well as the front guard. You can roll to the sides or to 2. However, this ability has a slow animation and its extension skills have no protection. For example, [Q] means that it is time. You will also receive a +10 iron chain gardbrace when you complete your mission to wake up. When it has 261 (using Nouver), it is actually better to use Nouver in PVE also due to the AP bonus given in the AP supports. Flow: Nimbus Strike is also really à EtIl to chase your enemies and catch them by surprise because it has an armor and bound cc. Skill Add-Anshow are some examples of viable skills accessories you can take. However, the ability has no protection. It is a good selection, especially for PVP-oriented players and also offers a small amount of evasion and reduction of dais. You would also recommend putting the ability in your hot bar so you can use it to change instantly when you wake up and use the ability. Be sure to also use the gem slots to obtain their attack speed and a chronic blow up to 5. Another alternative is the Styd Gauntlet to level if you have problems to obtain a rosar quantlet. It carries a lot Reaching this stage, and there are many small improvements and other accessories that will use on the road, but this is ideally its soft cove construction for PVP. Kutum's weapons also have a 10%resistance. for for 56] Speed of movement of spiral cad -10% for 7 seconds. However, it is simply not necessary because the striker can easily rotate the syndial with other skills for the front guard to be a risky ability to use compared to some classes. Ideally, you would want to buy or make it definitive (yellow). The path of the medal power sealed also can be freely obtained from Black Spirit Quests and a more than leather vambrace blt. Investing in this set can stop it in its progress towards Softcap, but it is very cheap once it takes into account repair and improves. The keys separated by a symbol of à, ~ "à + à à, ~ must be used at the same time. Level 48: Violent tiger (48 points) per day, generator of lower measures and caliber. For the attack of Cride ATACCPVP [Level 58] Target +10 for 5 seconds. Blackstar Gauntletblackstar is considered the best current in the slot weapon with a higher base AP than Kzarka. However, personally I would not bother them because I will want as many APs as possible. It is particularly good against classes that stack a lot of AP. I recommend using video guides to learn combos of more complex skills, because it is much more difficult to see exactly what it should be doing, instead of reading it and trying to wrap everything. You can activate this playing (displacement) + [Q] then stay still and do nothing for 3 seconds. In Awakening, or if you are already in awakening, it can also be used directly after the spiral cane holding (space). As with the majority of the classes, the succession draws a greater bottle of garbage at the final game points. Use the displacement bar to see the level of progress of the ability point 50 follow the bust of the main story to Vern City until Beatrice notifies you to visit it in Trixion. For autoinflicts 50 burn dava for 3 seconds. In the early levels of leveling, this class is slower to clean more mafia groups in comparison with other classes until it unlocks and invests in its most large skills of AOE. (Some parts of this guide, such as the descriptions of succession skills, are developing skills and will come on a later date, you can find this information in the game easily) Class guides are an approximate explanation of the class, designed to give an idea of the class and when it should point. It is a good ability to chain combos and HP recovery can be used at any time without the need for an objective. Dragon Slayer Gardbrace Dragon Slayer Weapons are very comparable to the weapons of the tooth of lein with their statistics. This will give you a totally separate skills on the main skills that improve your main hand skills and only have some skills to awaken. He recovers his HP and has a lot of damage, as well as an attack below. Down Smash and Air Smash. This is difficult to obtain and can be expensive to repair. For PVE, you want to use a kuto with corrupt crystals. If you want to go to a defensive construction and fight in mass pvp, then take the 3 levels of the ability to be ostile to block the objectives while your equipment causes a day. The AuraPassive Mountain Aura measure is its liability. Rosar Vambrace Rosar Vambrace is the best defensive fashion construction if you want to go to the complete construction of the DP tank because it has additional APs and 2 glass slots. The complete set will give the maximum mp/wp/sp +100, maximum HP +200, maximum resistance +200, attack speed +1, movement speed +1 and all resistances 5%. For the objective [Level 56] Prime: Rampaging PredatorPVP Attack +10 for 5 seconds. Liverto Gaunletliverto is the fourth stronger of Mainhand and much more fun to obtain and improving that Zkarka. Source: Pros de Alto Daà ± 0 of High Daave necessary to grind adaptable to different war roles of seven/strong node in the ability to grab PVP2nd of small scale (without protection but à à ostile) with the slow/clumsy animations. To predict the lack of long -range mobility, which makes it differ The majority of magic classes and glass canes due to its high medical resistance and explosion. The only ways of obtaining this gardbrace is through the bust or night seller. Then you will want to put the level 2 in each piece of armor before taking them all to level 4 also. Then you want to exchange a Serap or PRI/tungradation. Hand necklaces are also an alternative for PVP, if you no longer have Seraps de Da'ò, due to its articles effects. You can spin your cages while using the ability to change the direction in which you will jump. It can help you take the next AP support, but in the high AP supports, the additional AP you get is more small and will be missing the opportunity to have a chance, % At the same time both in their pre-debation and in their awakening. Blackstar is considered better for PVE at the end of the game, but eventually a Pen Karka was overcome. This weapon can be bought from a blacksmith and will give you 18 AP, so as well as precise. He must try to have Tri Gear before changing to this impossible. ESOTAL SKILL: The tiger emerges (20 points) per day. Otherwise, use bars for 2 AP and change Mark of Shadow as soon as possible for the 5 AP monarch ring. You also heals you for 300 HP and has a front guard. Level 30-31: Esota's ritca: The tiger emerges (48 points) per day. For the precise of the same time +3% for 12 seconds. Level 12: Violent tiger (4 points) per day. Roaring Tiger [LMB] + [RMB] This ability is definitely worth taking and is an essential ability. For oneself [level 60] Prime: Rampaging Predattack against Monsters +25 for 8 seconds. Adamantine [RMB] The ability has a front guard and will also inflict its goal and recover much WP. Because it recovers in an egoista 3 hp by HIT [level 58] Fangattack Crims +20 for 8 seconds. Be careful when using this pvp mass ability. PVP for PVE or PVP because it has no protection. The striker is a high mobility class with small effect skills (AOE). For example, [Q] + [lmb]> [f] means that it touches q and lmb at the same time, then touch f [lmb] refers to click left with the mouse, [rmb] refers to right click with its The names of mouse skills are optional. The names of Blue skills are skills to wake up (level 56+). You can find more information about the AP and DP here slopes for PVP, it really depends. Help you while moving. However, the strikers fight at the routine points of the final game, such as Aakom and Hystria. It is also great to use in PVP because it has a persistent overcoming of 3 seconds. It also has a damage against the effect of human element +7 that is good for PVP. Assign skill points to gain a skills on their most powerful skills. Some players recommend blocking this ability, but it depends completely on you. You must concentrate on improving Weapons first and then your armor. (Permahold q) It means that you have to all the combo. If it is new, it can be worth verifying if it is currently an update, but eventually you will need leather vambrace anyway. BHEG GIATH CASCO) ALTERNATIVE 4 € à, ~ - Giat fell. Tier 2 Skill Tree of Moon Flash Kick can be replaced with a single blow to explosive bosses in dungeons. If chiron food is not available, you can use explanatory and milk tiles, then other foods in your choice, such as Margoria Seafood and Serendia Special. BHEG's gloves (gloves) fell from BHEG. Try to buy a +15 if you can save your improvement resources. In some situations (such as a ranger or archer in 1V1), the symptoms can be in "ùil because they will simply burst it, and the wolf fang will be à EtIl to use that incoming day. 1 + [Q] Rage Hammer is his 200% black spyring rage and a good PVE ability, especially when he levels 56. For example, (keeping the Q) that he maintains Q until the next step. He can also exchange both Black Magic crystal: precise for Crystal of Elkarr (better in the slot), but these are very expensive and more difficult to obtain. You may want to block the ability for PVP and then use it from your skills bar. Skull crusher [shift] + [f] This ability is really important and is an essential ability. It offers several bonds and is also the only food that will give you an experience of experience points. Wolf's stalking will teleport him to his goal, which is à EtIl to chase low HP enemies, since he does not have so much mobility, but if someone expects someone to persecute them, he can be surprised easily. Step III) Double Flash requires flash step III of its previous awakening and the ability must be maximum. Give a mixture of DP/DP/Magic DP at a distance when leveling it, giving a total of 10 additional 8 dp. You can also touch twice [w] to roll forward, or touch double in any other direction. Additional notes, additional skill points can be invested during play and what paper you want to play in PVP. After many tests, it is confirmed that Nouver works better than the Kutum in these supports. This requires a 2 -hour preparation. Completing its boy line rewards the essotal ability: Lightning Tiger Strike and the maximum skill of awakened of explosive heat. This is due to the fact that only 30% of its APAs are applied to the day of the succession skills, as As the statistics of additional elements, such as human damage and precise/species. For SellPvx Skill Add-Ons [Succession] [Level 50] Rage Hammel Defense +15 for 10 seconds. Construction of subsequent skills: Simple coral flour. The construction you choose depends completely on your style of leveling in ADVENT and SLEEPING ASCENT CELEBRATION. It is one of your best skills for the dawn in the awakening and also has a The debuff speed of movement for your enemy and also gives you an amateur to attack speed and precise rate. Level 25: Moon Flash Kick (48 points) per day. For its food rotation at Node Wars/Siege, I would recommend using Knight Combat Ratings, Kamasyvia Special, Valencia Special and then King of Jungle hamburger in that order. For yourself, the best weapons of the game are currently eliminated from the bosses of the world, for 12 set. It is available only at level 62+, but it is a very good preate because it is high AP. Perfect Blow has a frontal protector and a slight lung front. So you are really losing a day in general, since it will not be hitting the enemy so much (unless it is full of dr). Dandelion Gardbrace Dandelion weapons are the weapons of awakening. They also rarely use potions when grinding whenever the skills are rotated in the right order.
