Policy for using Perfect Piano I like that this app was so easy to learn how to work, and for someone who is an expert piano player I take it from me if you want to learn this is a good spot to learn the basics. What was a little annoying was when I was trying to search up a song it didn't have many results. I think they should take the time an effort to find out more ways to learn a certain type of song. Love this I would definitely recommend getting this if are trying to learn or get better. First found this app I thought that it would be good to learn and I highly recommend it it's just the best app I wanted to download simply guitar but the app just frustrated me so much so learning the piano is the best and it's on a device that I can but I can transport and it's something that I can trust so I highly highly recommend it to other people that are looking to learn to try this or simply piano that's how you learn I'm gonna say this I delete all my games this is one of the first games that I downloaded So as it says no sound every time I touch a white key all the way at the bottom it won't make a sound or even show that I touched it I have to press all the way at the rope of the white note so it would make sound if I have an iPhone 5s plz fix I've had this app for 1 year and this has never been an issue The developer, Revoutlet Soft Inc, indicated that the app's privacy practices include handling of data as described below.
