Furthermore, the area of the numbering plan extends into the United States community of Hyder, In Alaska, located along Canada, the United States border near the city of Prince Rupert. History This section needs further quotes For verification. Please help improve this item by adding quotes to reliable sources. The material not brought can be SFI Given and removed find sources: A, "Area prefix 250" A ¢ A, "Area prefix 250" A ¢ A. JStor (December 2018) (Learn how and when to remove this message) The area of the prefix 250 was created on 19 October 1996, as a division of the area prefix 604, which was maintained by the lowest land. [1] before 1996, 604 had been the unique prefix in the British Columbia for almost half a century. While British Columbia would probably need another prefix in any case due to the province's growth in the second half of the twentieth century, the Split was rushed by the system of assigning the number of the number of the number prefix in any case due to the province's growth in the second half of the twentieth century, the Split was rushed by the system of assigning the number of the nu assigned blocks of 10,000 numbers numbers to a courier and a rate center of the rates in which it plans to offer a service, even in the smallest reorcament. Once assigned a prefix to a courier and a rate center, it cannot be moved elsewhere, even when a rate center has more than enough numbers to serve its customers. This involved thousands of missing numbers, a problem exacerbated by proliferation before faxing and searching for them and the nobile phones. In the middle of the first decade of 2000, 250 was already in place of exhausted by January 2008, the Canadian Radio-television and Telecommunications commission began to consider rescue options at the beginning of 2007. Proposals included: [2] a geographical split that would leave 250 with the inside and switched Vancouver Island A new prefix of expansion area of prefix 778, previously, a concentrated overlap for the Vancouver subway and the Fraser Valley, for the 250 concentrated overlaps of the territory covering part of the territory covering part of the territory and their customers spending and weight of change of their numbers, which would require reprogramming of cell phone mass. [3] The proposal for a split would have forced Vancouver Island and internal residents to change their numbers for a second time in a decade. [2] The CRTC announced on June 7, 2007, that 778 would be expanded to become an overlap for the entire province from that July. 4. On that date, exchanges in 778 became available for Vancouver Island and internal residents, and a permissive command period began British Columbia, during which local calls were made with seven or ten digits. [4] Three CO prefixes in the area 250 prefix were reserved for use by Northwestel, as 13 of its 15 switches at the moment was not enough time to implement a division before 250 is due to the discharge in January 2008. [3] Effective June 23, 2008, the seven-digit call triggered an interception message with a reminder of the new rule. After September 12, 2008, the seven-digit composition no longer works. [5] Lehave become the preferred method of area code relief in Canada, as they are an easy solution to the problem of number allocation compared to a split plan. On June 1, 2013, the prefix 236 was implemented on May 4, May, as additional distributed overlay to eliminate codes 250, 604, 778 and 236.[6] Service area and central office codes 100 Mile House: 395 456 593 396 706 Armstrong: 546 Beaverdell: 484 Beautiful: 957 Bridge River Valley, including Bralorne, Brexton, Gold Bridge, and Gun Lake: 447 Cranbrook: 417 420 421 426 Kamloops: 214 299 312 314 318 319 320 371 372 374 376 576 578 579 682 705 819 828 851 Chase: 679 Barrier: 672 Clean water: 674 Cache Creek 313 457 Logan Lake: 523 Savona: 373 Kaslo: 353 943 Kelowna: 212 215 258 300 317 322 448 450 451 454 469 470 491 575 681 712 717 718 762 763 765 769 801 807 807 807 807 808 861 861 861 863 864 868 Oyama: 548 Peachland: 767 West Kelowna: 700 707 768 Winfield: 766 Kimberley: 427 432 520 602 908 Kitimat: 632 639 Kitwanga: 849 Rural Kootenays: 229 357 399 424 429 529 603 829 Lillooet: 256 Lytton: 455 Mackenzie: 997 Merritt: 280 315 378 525 936 Midway: 449 528 605 Nakusp: 265 Nanaimo is divided into the following local centres: Cedar: 323 722 Lantzville: 468 468 616 619 667 668 714 734 739 740 741 754 755 762 796 797 802 816 824 956 Prince George: 277 301 552 561 563 564 565 596 612 613 614 617 640 645 649 960 961 962 963 964 970 981 Prince Rupert: 624 627 Qualicum Beach: 752 Quesnel: 255 316 925 983 85 991 992 747 249 Revelstoke: 814 837 652 656 Slocan Valley: 359 226 Smithers: 847 877 917 Soeke: 642 664 867 Jordan River: 646 Port Renflow: 647 Sparwood: 425 910 Stewart: 636 Summerland: 404 494 Terrace: 615 631 635 638 641 892 922 975 Tofin: 522 725 Trail: 231 364 368 512 521 693 921 Fruitvale: 367 Tumbler Ridge: 242 Ucluelet: 266 726 Union Bay, including Fanny Bay, Denman Island and Hornby Island: 335 Valemount: 566 Vanderhooof; 524 567 570 944 Vernon: 241 260 275 306 307 308 309 503 540 541 542 543 545 549 550 558 907 938 Victoria:
